

Pumps for Pond & Waterfall

Water Feature Pumps

Energy-Efficient Design & Design & Reliable Operation

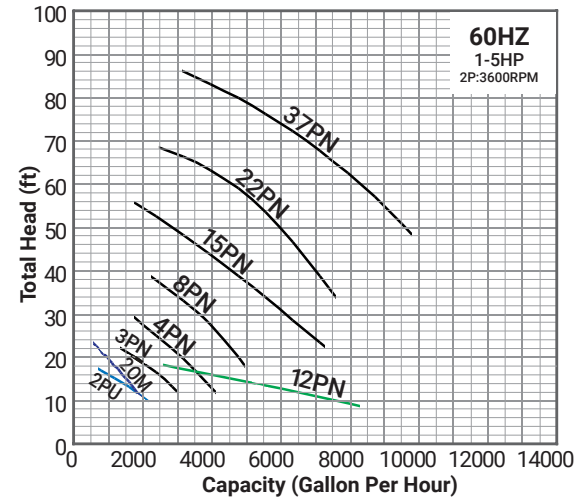

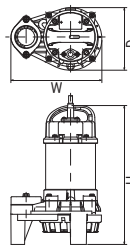

Features & Applications:

- Corrosion Resistant
- Durable Resin Molded Parts aid in longer pump life
- Eco-Friendly Operation
- Best for fish ponds and decorative waterfalls
- Guide-rail system available

Specifications:

Pump Model	Discharge Size (in.)	HP	Phase (Ø)	Voltage (V)	Amps	Cable Length (ft.)	Dimension (W x D x H, in.)	Pump Weight (lbs.)
2OM	1 1/2	1/5	1	115	3.2	20	8 x 6 x 12	13
2PU	2	1/5	1	120	3.1	20	9 x 6 x 15	13
3PN	2	1/3	1	115	4.6	20	9 x 6 x 14	16
4PN	2	1/2	1	115	5.8	20	9 x 6 x 14	16
8PN	2	1	1	115	8.7	20	9 x 6 x 15	20
12PN	3	1	1	115	8.7	20	12 x 8 x 15	32

Other voltages are available upon request.

High-Flow Water Feature Pump

For circulating water in a pond or waterscape garden

Features & Applications:

- Delivers greater water flows
- 304 Stainless Steel motor casing, fasteners and shaft
- High-Flow design with an axial-flow impeller

Specifications:

Pump Model	Discharge Size (in.)	HP	Phase (Ø)	Voltage (V)	Amps	Power Cable Length (ft.)	Dimension (W x D x H, in.)	Pump Weight (lbs.)
4HF	4	1/2	1	115	7.9	16	10 x 10 x 22	40
8HF	4	1	3	*220	3.5	32	10 x 10 x 22	42
15HF	6	2	3	*220	6.3	32	11 x 11 x 25	97

Other voltages are available upon request.

*220V Inverter Panel required. See Inverter Panel page.
