Installation Instructions

NK2-15 Sand Kit

Release from Liability

Upon reading this, the user of the respective Tsurumi product and Installation Instructions acknowledges and understands Tsurumi America shall not be held liable for any user injury that occurs during any component removal or installation.

The user also acknowledges he/she will be held responsible for any damage or destruction inflicted onto the product, and/or for the loss of parts during installation.

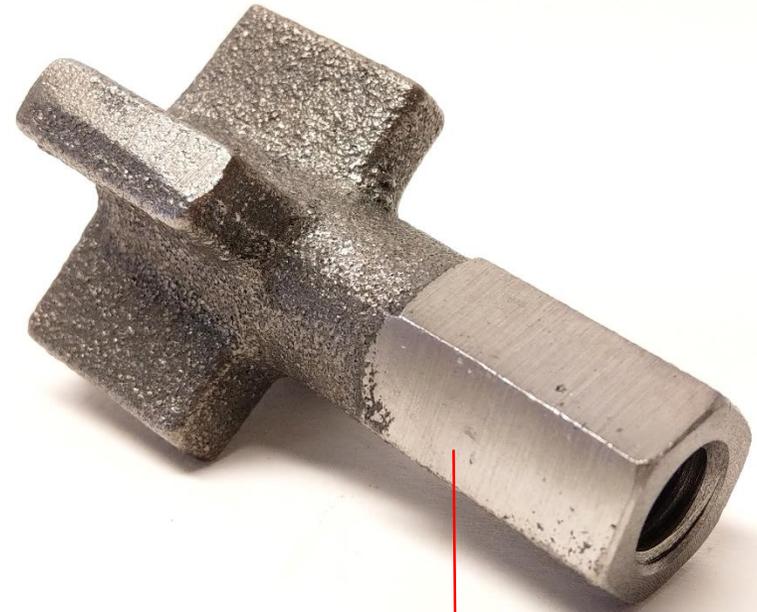

No part of this publication may be reproduced in any form or by any means without expressed written permission from Tsurumi America.

The NK2-15 Sand Kit installation is simple, as it only requires replacement of the strainer stand and the addition of an agitator.

Sand Kit Components

Strainer Stand

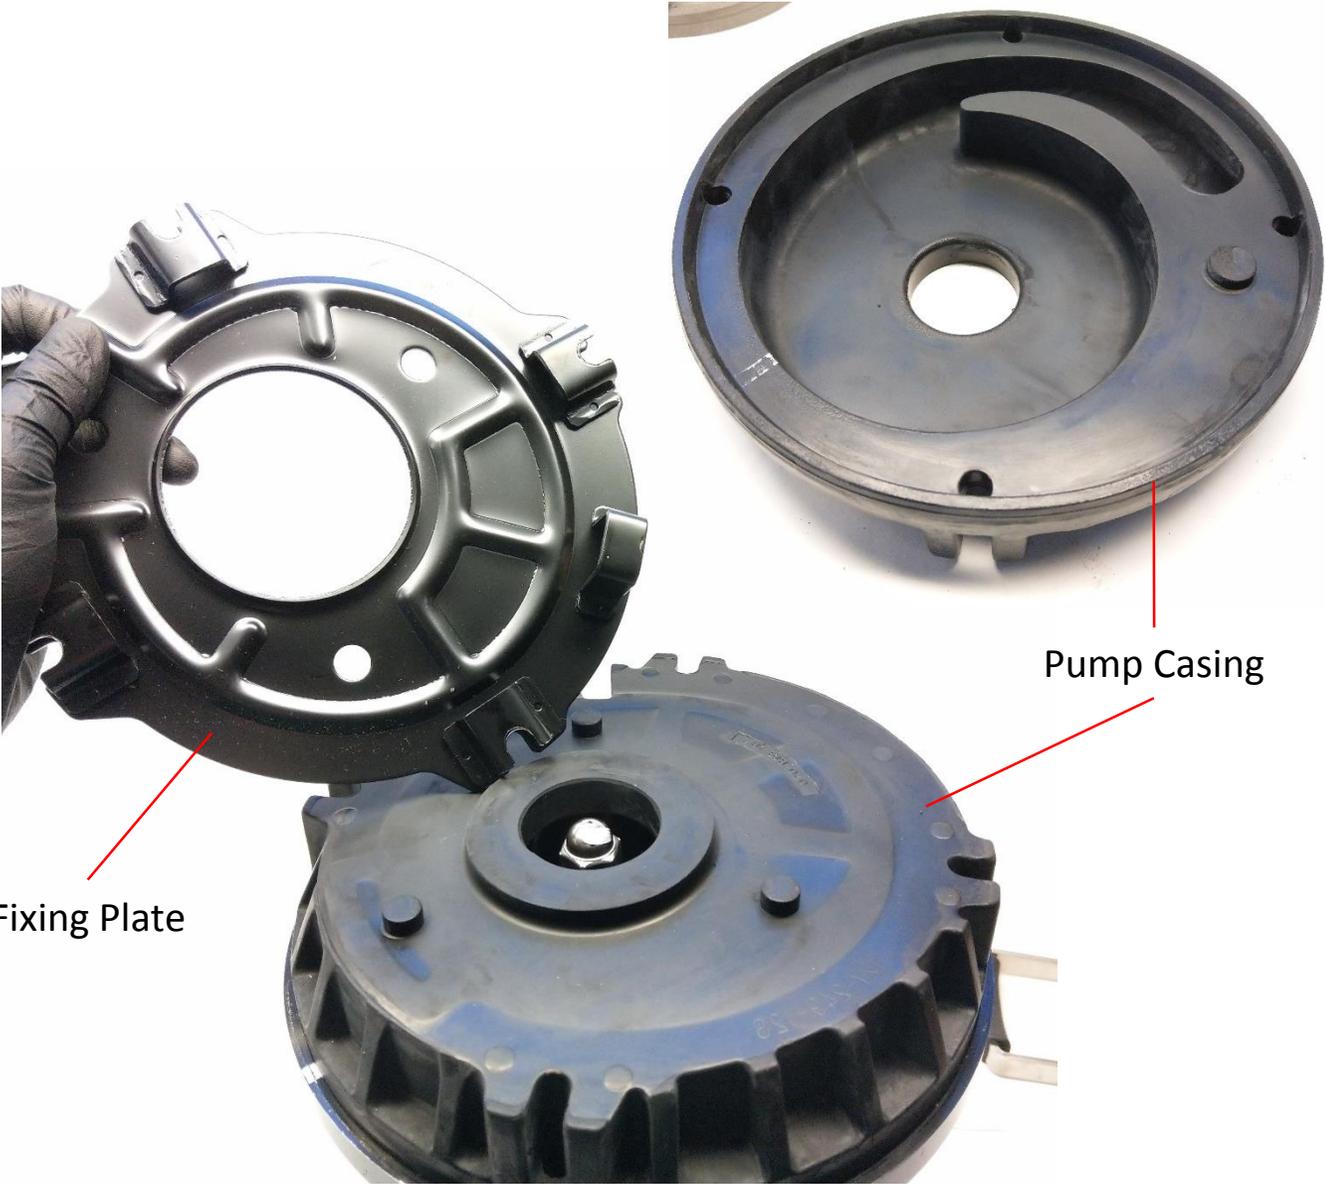

Agitator

Remove the Initial Strainer Stand

Remove the
Fixing Plate and
Pump Casing

Remove the Hex Cap

Hex Cap, Nut, and
Washer

Attach the Agitator

May be necessary to use two wrenches;
one holding the hex nut in place, the
second tightening the agitator.

Reattach Pump
Casing and
Fixing Plate

Attach New
Strainer Stand

Sand Kit Installation is Complete
