

Featured at WWETT 2026: Tsurumi's AVANT Line

Booth 1630

Tsurumi returns to the WWETT show to showcase its explosion proof line of submersible pumps and mixers for the wastewater industry. Attendees are invited to visit **booth 1630** to preview the line and connect with Tsurumi's team of experts.

Tsurumi Pump will be highlighting the AVANT line of FM approved products at the WWETT show this year. The show takes place February 17-19, 2026 in Indianapolis and brings together municipal engineers, contractors, and wastewater industry leaders across North America. Tsurumi's presence underscores its dedication to providing high performance pumps to the dewatering and wastewater markets.

"The Tsurumi team is very excited to attend the WWETT show again this year," said Bryan Nelson, Tsurumi Pump's Northeast Regional Manager. "We have elected to double the size of our display for 2026 allowing us to showcase

both our submersible dewatering and wastewater pump lines," Nelson added.

At the show, Tsurumi will be featuring the AVANT line at the booth. Designed specifically for sewage and wastewater applications, the AVANT line excels in challenging operating conditions. This line of pumps and mixers is known for its FM Approved design, IE3 premium efficiency motors, and variety of impeller designs.

"The WWETT show has proven to not only be a great venue for us to promote our products but to listen to industry leaders and learn how Tsurumi can better support our distributors," stated Nelson.

Thousands of wastewater professionals visit the WWETT show every year. The event is four days of seminars along with workshops and networking opportunities.

ABOUT TSURUMI

Tsurumi (America), Inc., a division of Tsurumi Manufacturing, was founded in 1979. Headquartered in Glendale Heights, Illinois, Tsurumi (America), Inc. has bases in Quebec, Canada; El Paso, Texas; and Salt Lake City. Globally, Tsurumi is active in 45 countries and has been an innovator in the pump industry since 1924. Tsurumi (America) is a provider of leading pumping technology in construction, civil engineering, mining, industrial wastewater, municipal wastewater, sewage treatment, flood control and scenery creation fields. Tsurumi products are backed by independent, third-party verification. Beyond leading pump technology, Tsurumi (America) is recognized for its robust distribution network and one of the largest on-hand inventories in North America.
